

AEROSAFETYSHOW DEMONSTRATOR PL
INTELIGENTNY SYSTEM NADZORU I BEZPIECZEŃSTWA OPERACJI LOTNICZYCH W CZASIE RZECZYWISTYM

Poznan, July 8, 2017

Dear Sir or Madam,

due to the forthcoming FAI World Glider Aerobatic Championships, which will take place on 27.07-06.08.2017 at the Aero Club Pomorski in Torun, please send the information about glider's equipment to the mounting brackets for AeroSafetyShow DEMONSTRATOR + PL (ASSD+ PL).

The ASSD + PL system, which is primarily used to control the player's position in the box, was officially included in the rules of this year's Championships. As a result, it will be necessary to equip all aircraft with onboard transmitters (mobile modules) that will allow them to be located. Modules will be mounted inside the gliders via the Universal Mounting Bracket (UMB), whose photos are attached to this letter (appendix 1).

Need for the new installation or declaration of equipment other than the installation in appendix 1, please send an e-mail to: **biuro@aerosafety.pl** not later than to **12th of July, 2017.**

Sincerely,

ASSD + PL Team

AEROSAFETYSHOW DEMONSTRATOR PL
